

Year 1: Autumn 1

Maths: We will be learning how to measure and compare different quantities. We will be exploring number lines to practice ordering numbers correctly.

English: We will be listening and learning new stories! We are focusing on using our Read Write Inc sounds and our writing packs to help us write simple sentences about the stories we explore.

Topic: We will be exploring the world around by looking at our seasons. We will discuss how the weather changes with the seasons. We will also be learning how to create maps of our local areas, and identifying key features.

PE: We have P.E on **Thursday**. It's important to remember our P.E kits so we can practice our footwork and balancing skills this term.

PSHE: We will be learning about families and friendships this term. Talking about how we can be well together and help others.

Home learning: Year 1 **Autumn 1**

Reading

Every **Tuesday** morning, your child can choose a library book to take home and share with you! When they return their library book the following week, we'll swap it for another. Please write in the reading diary when you read together. When your child has read 6 times a week, they will have a lucky dip into the class prize box.

Maths Every Friday your child will be set new maths learning on Doodle.

Creative

The following activities are something you can try at home to link to our in class topic learning.

- Explore the Autumn season by looking and comparing the different leaves we can find at this time of year.
- Draw an aerial view map of the local area around you house.
- Create a piece of artwork using only lines.

Show and Tell - On Fridays

Your child can bring something in to share with the class! We'd love it if you could link it to our class learning too.

We appreciate all your support!

Miss Bennet - Year 1 teacher

Miss Spyridakou - Teaching Assistant
